

PRE-CONFERENCE WORKSHOP:

BREAST MRI: A CASE-BASED REVIEW OF ESSENTIALS AND ENHANCEMENTS

Wednesday, April 15, 2020 (7:45 AM – 6:00 PM)

Overview: This 8-hour course for physicians will focus on building essential and enhanced skills in the practice of breast MRI. Expert faculty will guide participants through a methodical review of 100 breast MRI cases, and provide short lectures on key topics for evidence-based breast MRI practice. This course will emphasize clinical scenarios for MRI use, diagnostic accuracy, application of BI-RADS assessments and recommendations, and acquisition techniques including shorter methods. This course will fulfill the ACR Breast MRI Accreditation Program requirement for physician interpretation of 100 breast MRI examinations in the last 36 months in a supervised situation.

Learning Objectives:

- Identify strategies to improve diagnostic accuracy.
- Expand skills in application of BI-RADS assessments and recommendations.
- Acquire value-based acquisition techniques including shorter methods.
- Recognize current clinical scenarios for use including guidelines and outcomes.
